

How to make a snowflake

1. Put your name on the back of one craft stick.
2. Put a small dot of glue on the center of the front of the stick.
3. Put another stick on top so it makes an x, press and hold for a few seconds.
4. Repeat with remaining sticks.
5. Glue a ribbon loop to the back.
6. Brush the top of all the sticks with glue.
7. Sprinkle with glitter.
8. Shake extra glitter onto paper.

Notes for teachers: Craft/tacky glue will work best for gluing the sticks together. Regular glue for the glitter.
